Tasmanian Government Transfers Beaconsfield Gold Mine to NQ Minerals

London, United Kingdom – July 23, 2020 – NQ Minerals Plc (AQSE:NQMI, OTCQB:NQMLF, US ADR OTCQB:NQMIY) (“NQ” or the “Company”) announces that the Tasmanian Government has now formally transferred the Mining Lease ML 1767 P/M, that covers the Beaconsfield Gold Mine, to NQ’s 100% subsidiary Pieman Resources Pty Ltd.

About the Beaconsfield Gold Mine

The Beaconsfield Gold Mine has historic recorded production of c.1.8 million ounces of gold averaging c.15 grams per tonne (c.½ ounce per tonne). The Company plans to re-open the mine as soon as practicably possible.

On May 7, 2020, NQ also announced a new JORC (2012) compliant Mineral Resource Estimate of the lower section of the Beaconsfield Gold Mine of 1.454 million tonnes grading 10.3 grams per tonne (g/t) for 483,000 ounces of gold. Significant additional gold potential is still to be assessed in the upper section of the old Beaconsfield Mine workings, plus the orebody remains open at depth.

David Lenigas, NQ’s Chairman, said: “I’m pleased to announce that the Beaconsfield Mining Lease have now been formally transferred by the Tasmanian Government to NQ Minerals, and work has already commenced on site with respect to the gold treatment plant refurbishment and the deployment of geologists to site to commence a detailed sampling programme of surface stocks potentially available for start-up plant feed.”

Competent Person’s Statement (NQ Minerals Plc)

The information in this report that relates to the Beaconsfield Gold Mine is based on information compiled by Roger Jackson, an Executive Director of the Company, who is a 25+ year Member of the Australasian Institute of Mining and Metallurgy (MAusIMM) and a Member of Australian Institute of Company Directors. Mr. Jackson has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration results, Mineral Resources and Ore Reserves”. Mr. Jackson consents to the inclusion of the data contained in relevant resource reports used for this announcement as well as the matters, form and context in which the relevant data appears.

-END-

About NQ Minerals

NQ Minerals Plc is listed on London’s Aquis Stock Exchange (AQSE) under the ticker NQMI and has its 1:100 ADR traded on the US OTC QB under ticker NQMIY and its ordinary shares are dual traded on the US OTC QB under the ticker NQMLF.

NQ Minerals operations are in Australia. NQ commenced base metal and precious metal production in 2018 at its 100% owned flagship Hellyer Gold Mine in Tasmania. Hellyer has a published JORC compliant Mineral Resource estimated at 9.25 Mt which is host to Gold at 2.57 g/t Au for 764,300 oz Au, Silver at 92 g/t Ag for 27,360,300 oz Ag, Lead at 2.99% Pb for 276,600 tonnes and Zinc at 2.57% Zn for 217,400 tonnes. In addition to these resources, the Hellyer assets include a large mill facility and full supporting infrastructure, including a direct rail line to port. The Company is also planning to re-open the historic high-grade Beaconsfield Gold Mine in Tasmania, which has a JORC (2012) compliant Mineral Resource Estimate of 1.454 Mt at 10.3 g/t Au for 483,000 ounces of gold. Regular updates on the progress of the Hellyer Gold Mine and Beaconsfield can be viewed on NQ's website at www.nqminerals.com.

The Following section relates to NQ Minerals Plc's news releases distributed in the United States:

Cautionary Note to US Investors

The United States Securities and Exchange Commission ("SEC") permits US Mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can

economically and legally extract or produce. Any estimates of mineral resources shown in this press release or on NQ Minerals PLC's website have been prepared in accordance with definition standards of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves produced by the Australasian Joint Ore Reserves Committee, which may differ from definition standards of the United States Securities and Exchange Commission ("SEC") Industry Guide 7. We may use certain terms which the SEC guidelines strictly prohibit US registered companies from including in their filings with the SEC.

Cautionary Note Regarding Forward-Looking Statements

This press release may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements include, but are not limited to, any statements based on current expectations, estimates, forecasts, and projections, including those related to our growth strategy, mineral estimates and any other statements that are not historical facts. Forward-looking statements are based on management's current expectations and are subject to risks and uncertainties that could negatively affect our business, operating results, financial condition and stock price. Factors that could cause actual results to differ materially from those currently anticipated are: risks related to our growth strategy; risks relating to exploration, development and/or extraction; our ability to obtain, perform under, and maintain financing and strategic agreements and relationships; our ability to attract, integrate, and retain key personnel; global demand for mineral resources; our need for substantial additional funds; government regulation; as well as other risks. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations or any changes in events, conditions, or circumstances on which any such statement is based, except as required by law.
